For the complete line of our  
Care & Maintenance products  
See pages 78-79

### 100% Solution-Dyed Polyester Fabrics | Awning Grade:

Price Group 2 (Our exclusive 5800 series)

Limited warranty: 5 years against fading

**MOST STAINS ON SOLUTION-DYED FABRICS CAN BE CLEANED UP WITH TREASURE GARDEN'S UPHOLSTERY & FABRIC CLEANER (TGC-UFC-32) OR A NATURAL MILD SOAP AND WATER SOLUTION.** Solution-Dyed fabrics should be cleaned regularly before substances such as dirt, etc., are allowed to accumulate on and become embedded in the fabric. The fabric can be cleaned without being removed from the umbrella. Simply brush off any loose dirt, etc., clean with warm water (no more than 100° F) and a cleaner such as our **Upholstery & Fabric Cleaner (TGC-UFC-32)** or a mild natural soap. Rinse thoroughly to remove cleaner. It may be necessary to re-apply a water repellent treatment, such as our **Upholstery & Fabric Protector (TGC-UFP-32)**. When washing or cleaning, **DO NOT SUBJECT TO EXCESSIVE HEAT** as the fabric will shrink. **DO NOT STEAM PRESS OR DRY IN ELECTRIC OR GAS DRYERS.** Allow fabric to air dry. In case Solution-Dyed fabrics are stored during the winter season, it should be cleaned, allowed to air dry and stored in a dry, well ventilated area. For stubborn stains, please see the stain cleaning chart below for more specific cleaning instructions.

## STAIN CLEANING CHART

### Protective Furniture Covers

Limited warranty: 1 year against fading and free of manufacturer's defects (stitching, elastics, velcro).

Protective cover fabric should be cleaned periodically with mild soap and water & scrub with soft brush. After cleaning, always rinse thoroughly with clean water and allow to air dry. **DO NOT USE BLEACH.**

NOTE: Awning fabrics are treated with a finish which gives the fabric its water repellency and a firmer hand which helps in the sewing and fabrication of the products. Mark-off/Crazing may appear as white scuff marks or thin white lines on the fabric which will normally diminish or go away with normal weathering and will not affect the overall performance of the product.
