IMPORTANT:

Prior to assembly it is important to decide on the location of the umbrella.

- Allow ample height to avoid damage to your umbrella during assembly and usage.
- Choose a location that is level and sturdy.
- Avoid any sloping or soft ground.
- Consider a location that will maximize the umbrella's 360° rotating function (if applicable). Placing the umbrella between two entertaining areas is ideal.

CAUTION:

- Moving base fully assembled (without wheel option) will increase the risk of damage to your umbrella, base and/or can cause serious injury. We recommend a two-person team for assembly and disassembly.

- Tighten with hexagon wrench.
